Subject: RE: Complaint

What you need to do is look up at the lights and see they are not on in the hallway.

What you need to do is see that there is a light above the rear door that does not work.

But you said there are not any, which is a code violation.

What you need to do is see that 22 or more exterior lights posts do not work in both complexes.

What you need to do is see that every single building has hallway lights that do not work.

So, you think that I want you to come in here and do what?

When you find that everything you emailed to me was not true then what?

I do not want the very same person that has already lied to come here and do an inspection.

NOTHING in the inspection you did not do is truth.
