**Subject:** Dishonest Housing Inspector

Legal Aid, I NEED HELP!

Today my situation has become MUCH WORSE than it was yesterday when I contacted your organization.

Today I received an email from the fire chief and head of housing inspections claiming that an inspection of my unit was done on 11/4/2025.

His email claimed:

*"This email is in response to the complaint you emailed me 10-22-2025.  
The Fire Dept contacted the Manager on 10-29-2025 The list of items you sent were brought to her attention  
and a follow up inspection was set up for 11-4-2025  
At the conclusion of this inspection no outstanding violation were found."*

No inspection of my unit was performed on 11/4/2025.

No inspector, no maintenance person, nor the property manager came into this unit on 11/4/2025.

Now I have both a government official and the property manager lying.

I am afraid that nothing will be done and they will not renew my lease just like the other apartment complex that refused to get the units to the city code

I cannot afford to move, all I want is for the landlord and the housing inspectors to follow the law, fix the issues, and cease being dishonest.

Who was involved in NOT inspecting my former place? The VERY SAME head of housing inspection that lied about doing it on 11/4/2025!
