Subject: Still NOT TO CODE HERE

Your “final” inspection 12/4/2025.

The hanging hallway light still does not work.

My key does not work still.

One of your firefighters asked me that day:

“Do you want a new lock or a key that works?”

I said:

“I just want a key that works all the time.”

Six days later I do not have a key that works all the time.

Today the refrigerator is still running without the manufacturers’ required cooling components

Today the appliance, the dishwasher, called a “landlord- tenant issue” does not work and it never has.

Now because it does not work there is mildew and mold, yet you claim it is not a housing code issue.

You said you did not need to come inside, yet the issues are inside.

You have asked me things like, “Who removed it?”

Not caring about it needs the cooling fan.

You lied and said you did an inspection, and you never were here.

Such a nice guy they say about you.

I know a liar that they also liked called Ted Bundy.

So where are the inspection reports?

Why will you not do your job and force the landlord to get all their appliances in working order by the city code and the IPMC?

Why did you CALL THE landlord and THEN PRETENDED YOU WHeRE HERE?

Whose BED ARE YOU IN?

NOT THE ONE YOU SHOULD BE

You are a corrupt lying city official.

You do not enforce the law.

I guess you all ignore me because you know you are wrong.

The State will deal with you that refuse to enforce the law.
