Subject: Request for Disclosure of Third-Party Contractor Information

Property Manager,

I am requesting the **legal name, business address, and license information** of the contractor(s) your office uses for appliance repair and maintenance inside my unit.

Because they are entering my home and performing technical work that may involve electrical and mechanical components, I need to know:

1. The **legal name of the company** you contract with
2. The **full name(s)** of the technicians who have entered my unit
3. Their **state license or certification numbers**, if applicable
4. Do they have an electrician's **licenses**
5. **Are they certified to rewire appliances** not using the manufactures' instructions
6. Whether the company carries **liability insurance** while performing work in tenant units

This information is necessary for my records, for verifying that individuals entering my home are properly qualified and insured, and for any legal action in the future.

Please provide this information within three business days.

If you refuse to disclose this information, it will be documented as non-compliance with a reasonable safety request.
