			<u>\$ 34.24</u>				<u>\$ 7.00</u>
							<u>\$ 41.24</u>

* I have no room in the failing freezer, the temperatures outside are over 40°F, I have no cooler, I cannot afford ice, and some items cannot be purchased in individual servings, even if the food comes dried, I end up discarding half of the portions after cooking. The fractional numbers represent the portions I had to discard.
